

DHINESH RAJ D

📍 Cuddalore, Tamil Nadu 📞 9361981850 ✉ dhineshrajdhineshraj65@gmail.com

Summary

Motivated graduate with a Bachelor's degree in Electronics and Communication Engineering, possessing hands-on experience in cloud and networking. Eager to begin a professional career, take on challenging opportunities, and contribute effectively while continuously learning and growing.

Internship

FM Broadcasting

April 2025 – May 2025

Alayam FM, Coimbatore, India

- Gained practical exposure to FM broadcasting and wireless communication systems at Alayam FM 90.0
- Worked with broadcasting equipment like transmitters, antennas, and audio consoles.

Industrial Based Embedded Systems with AI and IOT

June 2024 – July 2024

NSIC, Chennai, India

- Gained hands-on experience with microcontrollers and sensor interfacing for real-time applications.
- Applied basic AI/ML concepts for predictive analysis and intelligent decision-making in embedded applications.

Education

Bachelor of Engineering – Electronics and Communication Engineering

K. Ramakrishnan College of Technology

May 2025 CGPA: 6.66

Higher Secondary Certificate (HSC)

SM Hindu Higher Secondary School

Mar 2021 Percentage: 78.37%

Project

Design of 4-Bit Ring Counter Using Quantum Dot Cellular Automata (QCA)

- Designed and simulated a 4-bit ring counter using Quantum Dot Cellular Automata (QCA) for high-speed and low-power digital logic implementation.
- Replaced conventional CMOS logic with QCA-based structures, improving area efficiency and reducing power consumption.
- Analyzed and validated circuit performance through simulation tools, demonstrating optimized energy-efficient design.

Technical Skills

Languages: Python, C programming, Embedded C

Core Wireless: IoT, Wireless Communication, Cloud Computing, Networking.

Core Electronics: Circuit Analysis, Basic VLSI, Digital Logic.

Tools: Arduino IDE, QCA Designer.

Other: Data Entry

Soft Skills: Leadership, Teamwork, Problem Solving, Adaptability, Communication.

Achievements

- Completed a **Master Class on Embedded C Programming** conducted by Pantech.
- Successfully completed a value-added course on **Simulation Software for Electronic Device Design**.
- Attended a workshop on **Science and Technology Capacity Building for Industrial Needs**, organized with support from the Tamil Nadu State Council for Science and Technology (Oct 2024).
- Successfully completed **Learnathon 2023 & 2024** conducted by ICT Academy.
